

# DISPOSAL OF LABORATORY BATTERY (RECHARGEABLE)

4 common waste rechargeable batteries are found on campus and can be collected for recycling:

- Lead-acid
- Lithium ion (Li-ion)
- Nickel metal hydride (NiMH)
- Nickel Cadmium (Ni-Cd)

Research-made coin batteries:

- Lithium metal (or ion)

## NOT ACCEPT

Research-made coin batteries:

- Sodium, Potassium metal, or other reactive / hazardous substances

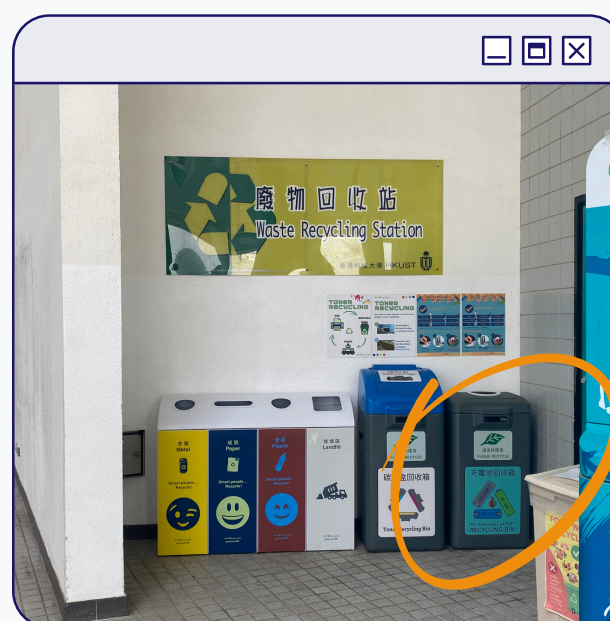

Disposal (primary or single-use) batteries: e.g. alkaline, zinc carbon

To dispose of these batteries, submit a request through the **HSEO Waste Collection webpage**:

<https://hseo.hkust.edu.hk/form/request-for-batteries-collection>

For the disposal of a **small quantity** of portable chargers and batteries, please go to the collection points:

Recycling station located outside lift 3 in the Atrium

Recycling station located on the UG floor of the CYT building
