

Stay Safe and Prevent Needle Stick Injuries!

Safety Tips

- Use a designated sharp box for needles.
- Dispose of the entire syringe with the needle directly.
- Allow needles to drop into the sharp box.
- Seal and replace the sharp box with 75% full.

What NOT to Do

- Do not recap used needles.
- Do not reach into the sharp box.
- Avoid overfilling the sharp box.
- Keep the lid securely closed when not in use.
- Seal the sharp box with adhesive tapes when it is about 75% full.
