

HOW TO USE A FIRE BLANKET

1.

Pull the Fire Blanket

Remove the fire blanket from its rack by grabbing the two protruding tabs and pulling down.

2.

Hold the Fire Blanket Up as a Shield

Hold the fire blanket in upright position to protect you from the flames and heat.

3.

Cover the Fire Carefully

Lay the fire blanket over the fire gently, starting from the edges and working inwards to completely cover the fire and cut off their oxygen supply.

4.

Leave the Fire Blanket in Place

Allow the fire blanket to remain in place to ensure the fire is cooled completely.
