How to enable/configure "Heat Stress at Work Warning" notification in MyObservatory?

- 1. Download the "MyObservatory" Mobile Application from the link below: https://www.hko.gov.hk/en/myobservatory.htm
- 2. Please ensure you have included MyObservatory in the Notification Center under Settings -> Notifications. Then stop MyObservatory from running in the background and reopen MyObservatory again for enabling notification in the app's setting.
